

Your perspective is needed!

Share your experience on high cholesterol tests and treatments!

St. Michael's researchers are looking for people to participate in a **60-minute confidential telephone interview** about how to find out if you have high cholesterol and how to treat it.

You will help us understand how members of the community feel about being screened for cholesterol and receiving medical care for it.

To participate you must be an English-speaking adult between 50-75 years, and live in one of these 27 regions in Ontario:

- Algoma
- Brant
- Cambridge-North Dumfries
- Chatham City Centre
- City of Thunder Bay
- Cochrane
- Couchiching
- District of Kenora
- District of Thunder Bay
- Elgin
- Essex South Shore
- Guelph-Puslinch
- Haldimand Norfolk
- Haliburton County and City of Kawartha Lakes
- Huron Perth
- Lambton
- Leeds, Lanark & Grenville
- North Simcoe
- Northumberland County
- Oxford
- Peterborough City and County
- Quinte
- Rural Frontenac, Lennox & Addington
- Rural Hastings
- Rural Kent
- South Georgian Bay
- Wellington

What are the benefits?

- You may be helping to improve health care in Ontario and may help design tools for patients and family physicians to improve cholesterol management.

How do you get involved?

- If you are interested in taking part in an interview, please contact Jennifer Rup, at rupj@smh.ca. We will ask you to complete a brief online questionnaire to assess your eligibility for taking part and if eligible, will email you to arrange an interview time.

Note: You will receive **\$21.00** for the interview and the interview will be recorded. Participation in this study is voluntary and you may withdraw at any time. We will not share your individual response with anyone outside the study research team. Individual results will be grouped and presented in a summary paper, which may be shared with the public.
